

PTG Austin News – January 2017

The David Brown's seminar hosted by PTG Austin was a great success. David taught and demonstrated damper regulation and voicing to 25 PTG members. His presentation covered both basic theory and advanced technique and was accessible to both newbies and senior technicians. Our thanks go out to David for sharing his experience and expertise with us and to Bill Cory, Joe Dunn, and Steve Walthall for organizing and running the event. Thanks to Charles Ball for setting us up with the classroom and demo piano.
